About Me

To work as a Software Engineer applying my knowledge in the field of testing, designing, and maintenance to cater to the specific needs of the people. I wish to work in a team of motivated individuals who wish to work towards the advancement of the company and its goals.

Experience

Full Stack Developer

October 2023-Present

Trigeminal AI, Bengaluru

As a full-stack engineer at Trigeminal AI, I specialize in React for dynamic web apps. With strong JavaScript skills, I collaborate across teams to deliver high-quality solutions for clients and users.

Jr. Software Engineer

October 2022-October 2023

B-Jelt Technologies, Kochi

As a full-stack engineer at B-JeLT, I focus on MERN stack web apps, excelling in MongoDB, Express, React, and Node.js. I collaborate across teams to deliver top-notch solutions for clients and users.

MEA(R)N Stack Internship - NACTET Certified

September 2022-February 2023

Luminar Technolab, Kochi

Projects

RestoAp:

Restoap is a software solution that helps restaurants modernize their operations by providing digital order taking and payment facilities, as well as digital menus, scan-and-order capabilities, point-of-sale systems, stock management, and payment support

pixQu:

The face recognition image sharing platform is a web app where users upload images, tag people using AI facial recognition, and discover photos of themselves uploaded by others.
